

Highland Partners is an equal opportunity employer.

Sr. Project Manager - Data Center Migration

Location - Anywhere USA
Job Number: 71002-2502

Position Description

Highland Partners Consulting LLC is an IT professional services company delivering IT solutions across a broad spectrum of industry groups. We are interested in candidates that are eager to support our team as we take on the tough challenges of our clients' complex IT infrastructure needs. All candidates must appreciate and support a strong values system and adhere to conduct above reproach. At Highland Partners, we value our team members and provide rewards that are commensurate with contributions.

The senior project manager in this role is accountable for one or more complex data center migrations. Candidates must have a long history of successful project management and leading complex data center migrations. Leadership skills is a must have. This role requires leading and motivating teams that include direct and indirect team members, vendors, and partners. The position requires the ability to collect requirements from the client, organize the project team, develop the plan, skillfully implement the plan, and shutdown the project according to key success factors. Travel is expected to be 75% on average.

Required Skills and Experience

- Migration experience with emphasis on infrastructure components
- Strong organizational and coordination skills
- Effective communication skills with executive and technical levels
- Ability to control scope and mitigate risks
- Experience using a well known project management tool
- Must have strong client interfacing skills
- Seven to ten years experience managing large scale projects
- Experience managing projects of high complexity
- Leading teams without having direct line management authority
- A long track record of verifiable project success

Preferred Skills and Experience

- Experience in one or more technical domains
- Data center operations experience
- Ability to react quickly to changing requirements or circumstances
- Project management certification

This position could be contingent upon newly signed business. This position could be subject to a 1099 work arrangement.
